Football and Cheer Coach Responsibilities as a Member of the Forsyth County Broncos

All coaches will take personal accountability for ensuring a positive experience for football players and cheerleaders (spirit participants). Some guiding principles will apply:

1. Players will be taught fundamental skills for the sport. Coaches will be willing to learn new techniques.
2. Players will be taught outstanding sportsmanship. The Broncos will treat all other American Youth organizations with respect. Coaches should demonstrate and communicate a good sense of values. (I.e. fair play, sportsmanship, respect, personal accountability and teamwork.)
3. Players will be taught to realize that they must only concern themselves with that over which they have control!
4. Coaches will have good communication skills, with kids, parents and each other.
5. Coaches should enjoy working with children, and not get easily frustrated by them.
6. Coaches should have a positive attitude and motivate, teach and be a role model for play.
7. No coach shall make a child feel demeaned and inferior.
8. Coaches will immediately elevate potential issues and will be willing to follow the correct protocol for problem resolution. The Chain of Command must be adhered to at all times.
9. Coaches will be safety conscious and have basic first aid skills or knowledge.
10. Coaches will become educated in and adhere to the rules of the Bronco Organization, Piedmont Youth Football and Cheer League, and American Youth Football/Cheer.

Some things to keep in mind during the normal operations of the season:

1. Coaches will confer with the League Rep (Football) or the Cheer Director and their assistants when changing practices or applying additional rules.
2. Coaches will keep the League Rep (Football) or the Cheer Director and their assistants informed of issues and will involve them in the appropriate resolution of issues, when warranted.
